

Celebrating the scientific contributions of Roland von Glasow

Royal Met Soc Atmospheric Chemistry Special Interest Group (ACSG) and
School of Environmental Sciences, University of East Anglia

University of East Anglia: School of Environmental Sciences

Wednesday 25th May 2016, 11.00

This year's RMetS ACSG meeting is being co-organised with the School of Environmental Sciences at UEA and will acknowledge the scientific contributions of Prof Roland von Glasow, who died suddenly in September 2015. We are pleased that we will be hearing from many of Roland's collaborators, colleagues and students, covering his work with **halogens**, the **marine atmosphere**, **sea ice** and **volcanoes**.

Please bring along any posters related to atmospheric chemistry for the post-presentation wine reception.
